

Novelties 2017/2018

Dear Customers and lovers of natural textiles,

It's that time of the year again, and we are delighted to present our attractive new ideas and products to you. The ever-popular fleece for babies is available in three new colours, red mélange, green mélange and blue mélange. Thanks to the tremendous response, we have also decided to make last year's special offer colours petrol mélange and berry mélange firm fixtures in our range. With such a fabulous choice of colours, there's bound to be plenty to please all tastes.

And to match the new fleece colours, the colours red mélange and blue mélange are now also available plain or ringed as shirts, pants, overalls and bodies for babies and children.

Our Merino terry products have been revised. In addition to the usual items, our collection now also includes a dress, a hooded sweater and a new overall for babies. Some terry items are also available in the trendy „inside-out“ look, which has the fleecy side against the skin and the smooth side on the outside. That's not to say we haven't thought about the ladies too – and our popular wool/silk colour light grey mélange is now also available for them. Our new items are all machine washable.

We hope you enjoy browsing through our new ideas and products – and that you are as pleased with them as we are!

Underwear and clothing in natural fibres.
